## **New official reseller launches mobile-enabled DMS solutions in France**

Mobile-enabled enterprise solutions for more productive corporate data management were introduced in France this week thanks to enprovia's new official reselling partner MobilAgile – a specialist in Enterprise Content Management and mobile-enabling processes.

Customers' increasing need for mobile access to enterprise Document Management Systems and Enterprise Content Management Systems resulted in establishing a new reselling channel on a new market, in France. This new cooperation between enprovia® and MobilAgile allows enterprises in France to use the mobile-enabled Document Management System (mDMS) solution to increase their productivity. mDMS is available as a demo for a limited period of time and after this trial period each customer can choose a license most suitable for him.

This easy-to-use application enables its users a mobile access to their corporate documents when on the move via Smartphone devices or Tablet PCs, giving their business a new dimension, making their decision making processes smoother and their work more efficient. Companies in many European countries have tried mDMS and from this week have enterprises in France also the opportunity to experience all advantages of the mobile-enabler technology. "Our customers were requesting a mobile access to their corporate data and now we are able to provide them with professional solutions to increase their work productivity", says Jean Christophe Prudhomme, co-founder of MobilAgile.

The mDMS solution consists of a middle-tier and mobile device applications and is tailored according to the needs of the vendor or system integrator, ensuring that corporate identity is consistent with the company's offered portfolio. It connects to a variety of different,

common DMS and ECM back-ends and supports secure connections, secure offline storage, subscription to changes to documents and folders and workflows with decision support.

On top of the expertise and innovative solution provided by mDMS, our main decision criterias for MobilAgile representing EnProvia is the turnkey logic enabling to maintain DMS investment within BtoB space and last but not least the reactivity of enProvia team" comments Franck Feillu, co-fondateur of MobilAgile.
